DANDY
Timeless and unavoidable EPOS

CCR SYSTEMS
AN EXCEL COMPANY

The **DANDY DT395's** timeless design reinvents the EPOS with its sleek and modern design.

Its new, thinner base hides all peripheral connectors, resulting in a clean, sleek, and minimalist design.

The Dandy's ergonomic and aluminium construction makes it a tough yet stylish solution for all types of retail businesses.

This robust and creative design is fully compatible with cash drawers and receipt printers and is available in white or black to match the retailer's style.

It's no wonder the Dandy is the preferred choice for many of our customers in the UK and The Falklands.
