WE ARE DOJO

We're on a mission to make payments effortless.

From helping you trade to getting you paid, we're developing beautifully intuitive tools that take the hassle out of running a business.

That means faster transaction speeds than any other provider. Your hard-earned money in your account the next working day. And the world's most secure payment encryption protecting your profits.

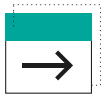

So you know your business is covered.

Market-leading security

Protect your income with point-to-point encryption – the world’s best payment security.

Next-day transfers

Get your takings from 10 am the next working day, even on weekends and bank holidays.

No long-term commitment

With minimum contract terms starting from 1 month, we won’t tie you down for years.

Seven-day tech support

Our technical experts are here to help when you need a hand – seven days a week, 8am to 11pm.

WHAT IS INTEGRATED PAYMENTS?

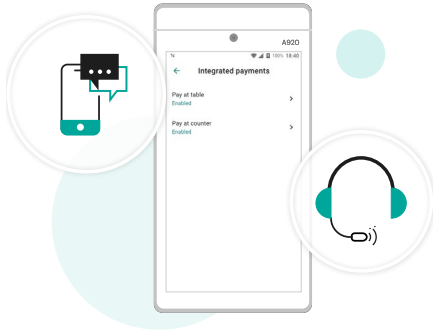

Connect your card machine and EPOS.

Create a seamless connection between your card machine and EPOS with integrated payments.

When you take a payment, it's securely passed between both devices, so it's goodbye miskeying mistakes and hello to smoother transactions and rapid reconciliations.

WHAT IS INTEGRATED PAYMENTS?

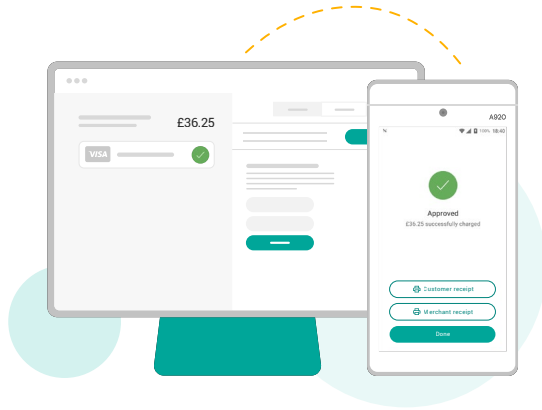

Set up in minutes.

Connecting your card machine and EPOS only takes a few minutes. We'll send you your integration details, and your EPOS provider will help you get set up either on-site or remotely. So you'll be trading in no time.

Serve customers faster.

With your card machine and EPOS system connected wirelessly in the cloud, there's no need to enter the transaction amount twice. So, speedier payments, happier customers and shorter queues all round.

Protect your profits.

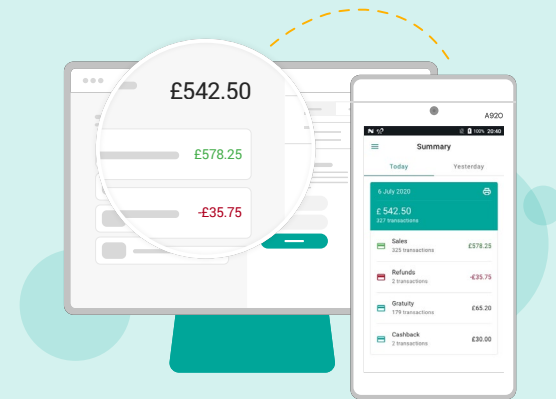

Just tap the amount into your EPOS, and the transaction is pushed directly to your card machine. And because you don't have to enter the amount on both devices, you can **save up to £140 in written-off revenue each month.**

Findings from 80 customers in February 2021: data represents the average customer, based on size of business and number of card machines; £16 margin of error at 95% confidence.

Cash up quicker.

Cashing up at the end of each day takes minutes with integrated payments. Because the payment is pushed from one device to the other, cash and card takings will automatically add up – so you can **free up a third of your time cashing-up each day.**

131 customers asked across two studies in 2019 and 2021: the saving was 3 minutes 55 seconds, equating to 34.9% of the time taken; margin of error of 22 seconds at 95% confidence.

PAY AT COUNTER & PAY AT TABLE

Two modes. Total flexibility.

Pay at Counter and Pay at Table modes offer ultimate flexibility – whether you take payments at the counter, the table, or both. So you can blitz through queues at the counter, or split the bill, or add gratuity at the table. It gives you the freedom to take payments on your terms.

Pay at Counter

Pay at Counter is great for businesses like shops, cafes and pubs – anywhere that takes payments at the till. The amount is automatically pushed from your EPOS to your card machine, so you can serve more customers faster.

Pay at Table

Ideal for bustling restaurants, Pay at Table means printing the bill, splitting the payment and adding gratuity can all be done quickly and easily on your card machine. So no more pacing back and forth from the table to the till.

GET INTEGRATED PAYMENTS

Integrated payments. It's simple.

Scalable to your needs

You can connect as many card machines to as many EPOS systems as you like. It's designed to fit into your business.

Uninterrupted payments

Switch to non-integrated mode in your settings if your EPOS system goes down. Then simply key in the transaction on your card machine.

Automatic software updates

Integrated payments updates automatically, so you'll always get the latest features and improvements without any faff.

No additional hardware

We're partnered with all the leading EPOS providers, so there's no need for any expensive additional hardware.

Integrated payments has made running the restaurant an absolute breeze. We're able to turn tables fast and cash up at the end of the day even faster! Our staff love it!
