

We'll pay your costs to switch. And give you the freedom to leave.

Here's a not-so-fun fact.

90% of businesses are locked into a bad deal with their payment provider. Handcuffed for a year or more, with no way out unless they pay a hefty fee.

No wonder half of the UK businesses we asked said contract terms were a major consideration when it came to choosing a payment provider.

That's why we offer contracts that start from as low as 1 month. And we could even pay up to £3,000 towards exit costs if you're switching from another provider.

Now that's not a bad deal.
